1. During our last meeting [ ] reported a conversation with Dr. MATERLICI who told him of a struggle within the UPSWING hierarchy between Colonel LANGKAB and Dr. WINTERSTEIN. The way the story goes, the two were vying for the top spot on the second level of the UPSWING command, i.e., directly below UTILITY. As reported by MATERLICI, WINTERSTEIN won out, and LANGKAB remains in charge of UPSWING's deep cover organizations.

2. Henri duLONG is still in training in Frankfurt. [ ] does not have the address but indicated that duLONG told him that he was living in a new house or building near the Bahnhof in Frankfurt. After a bit more training, he is to go to an Anwesenstelle in Disseldorf and then back to Pullach to work for Tomi HALTER who is now described as the head of the UPSWING Satellite Section. DULONG may possibly be identical with the Henri von DULONG mentioned in ESBW-6298. When I asked INGROWN how old duLONG was and where he was born, he replied that he was about 38 and thought he was born in Stettin. Von DULONG would be about that age and went to school in Stettin. [ ] will get his exact personal data.

3. [ ] mentioned that PrKulein Louisa von KÖNNERITZ, formerly an employee of his but more recently employed by UPSWING, is now at the German Embassy at Ankara. He assumes she is still on the UPSWING payroll under official cover.

4. Professor CLASSEN is no longer with the Gesellschaft für Wehrkunde but is now working for UPSWING.
